Subject: Microsoft Settlement

Greetings,

Thank you for your efforts trying to forge settlement with Microsoft to prevent their unduly biasing American technological business.

Unfortunately, I disagree that the Proposed Final Judgement will adequately address the extreme measures Microsoft has made a daily part of its business dealings. I think the PFJ is simply inadequate to the task, and I urge you to consider the points made in Dan Kegel's (et al.) open letter regarding the settlement (at <http://crossover.codeweavers.com/mirror/www.kegel.com/remedy/letter.html>).

Sincerely,
Malcolm Gin
